PRODUCT CHANGE NOTIFICATION – PCN_BUR_00113

Dear customer,

Following expectation of JN1095 standard Gunfire Vibration test requirement, Eaton Electrical Products Ltd has initiated change of UAM200 and UAM300 fuse links to achieve improved mechanical test performance. Due to a recent change of a component we announce modification of existing manufacturer's part number according to the rule below effective immediately:

Old part numbers	New part numbers
UAM200	UAM200-1
UAM300	UAM300-1

External permanent marking of the physical fuse links required by standard's 6.1 clause will change as well to the above mentioned new part identifications.

If you would like further information on this product upgrade, please contact the undersigned or your local sales representative.

Yours faithfully,

Yvané Smalberger
Product Manager
Eaton Electrical Products Ltd
