RelayGo

A new brand...

...traditional values

CONTINUITY

RelayGo took over relays manufacturing facilities in Alcorcón - Spain, keeping the same values that over 50 years, consistently, has been recognized internationally as a brand of excellent quality, great innovation and top technology. We maintain the same trajectory with the same suppliers, raw materials, facilities and production machinery, quality standards and the same professional and experienced manufacturing team.

WELL MADE IN SPAIN

Collaborating with our customers and suppliers and keeping the manufacturing in Spain. Together with our stakeholders we confront a new era with the launch of a new product range under the new RelayGo brand.

COMPETITIVE FUTURE

New products developed to meet and exceed the most demanding customer requirements, looking for innovation and competitiveness in our range.

NEW INNOVATIVE RANGE

Some innovations like the low consumption, SSR 50V, Timer programmable or multi voltage and multi current relays for all our families will be added soon to the new RelayGo range.
