

# RelayGo

RELAYGO'S FAMILIES ARE GROWING

**NEW**  
**MULTI VOLTAGE RELAY**  
FOR **ALL** OUR FAMILIES.

WORKS FROM  
**24V TO 240V**  
**AC/DC**

Our new multi-voltage relay has been developed to optimize energy consumption and work within a wide voltage range from 24V to 240V AC/DC. The relay electromagnetic system modifications are designed to achieve this revolutionary feature in the relay world. Made of the best quality materials, this new family of relays are very useful and versatile to the development of new projects and their applications in industry field.

 Say goodbye to your storage, save money and space.

 Be environmentally friendly.

 Forget about voltage and frequency variations.

 Take part of the change makers movement.

 Welcome to  RelayGo's new generation!
